

**[Yoga High 2011 200-hour
Teacher Training Application](#)**

Welcome and thank you for your interest in Yoga High and our Teacher Training. This training is for students interested in gaining a more complete understanding of the philosophical, physical and energetic system of Yoga, as well as those who want to become Yoga teachers. Do not worry at all if you are not planning to become a teacher. If you are, then there are a few questions below that you should start thinking about.

The questions below are to help us get a better understanding of you as yogis, students and for some, potential teachers. Whether you become a teacher or not, everyone will find that their practice has been deepened and that their relationship to Yoga has changed.

All the information you provide will be confidential; so please be candid if you have any health issues that we need to know about to better serve you.

Although we firmly believe you don't have to be a super advanced yogi to participate in our Teacher Training, we would like to point out that you will be practicing a lot and diving more deeply into your practice than ever before. We teach challenging vinyasa classes and you may not be able to do all the postures called out in a class and that's OK. You should still be fit and have a coherent understanding of basic poses. Our goal is to help you bring your mind, body and soul to a deeper place and we hope that you are open physically, mentally and spiritually to embrace all the wonderful things that lie ahead.

To help us get a better understanding of where you're coming from, please answer the following questions.

In order to stay as green as possible we ask that you please save this document on your computer, fill it out and attach it in an email to us at
